

110 Punch Down Tool

G116

Overview

The 110 punch-down tool is an essential part of network installation. It has 66 and 110 blades, ideal for telephone and network cables. It is designed with high- and low-impact settings for different wires, which is excellent for terminating keystone jacks and patch panels. Moreover, the built-in mechanism is long-lasting. It is a quality networking tool for telecommunication and network technicians as well as network beginners.

Benefits

66 and 110 blades for telephone and network cable termination

Adjustable impact setting for different conductors

Used with keystone jacks and patch panels

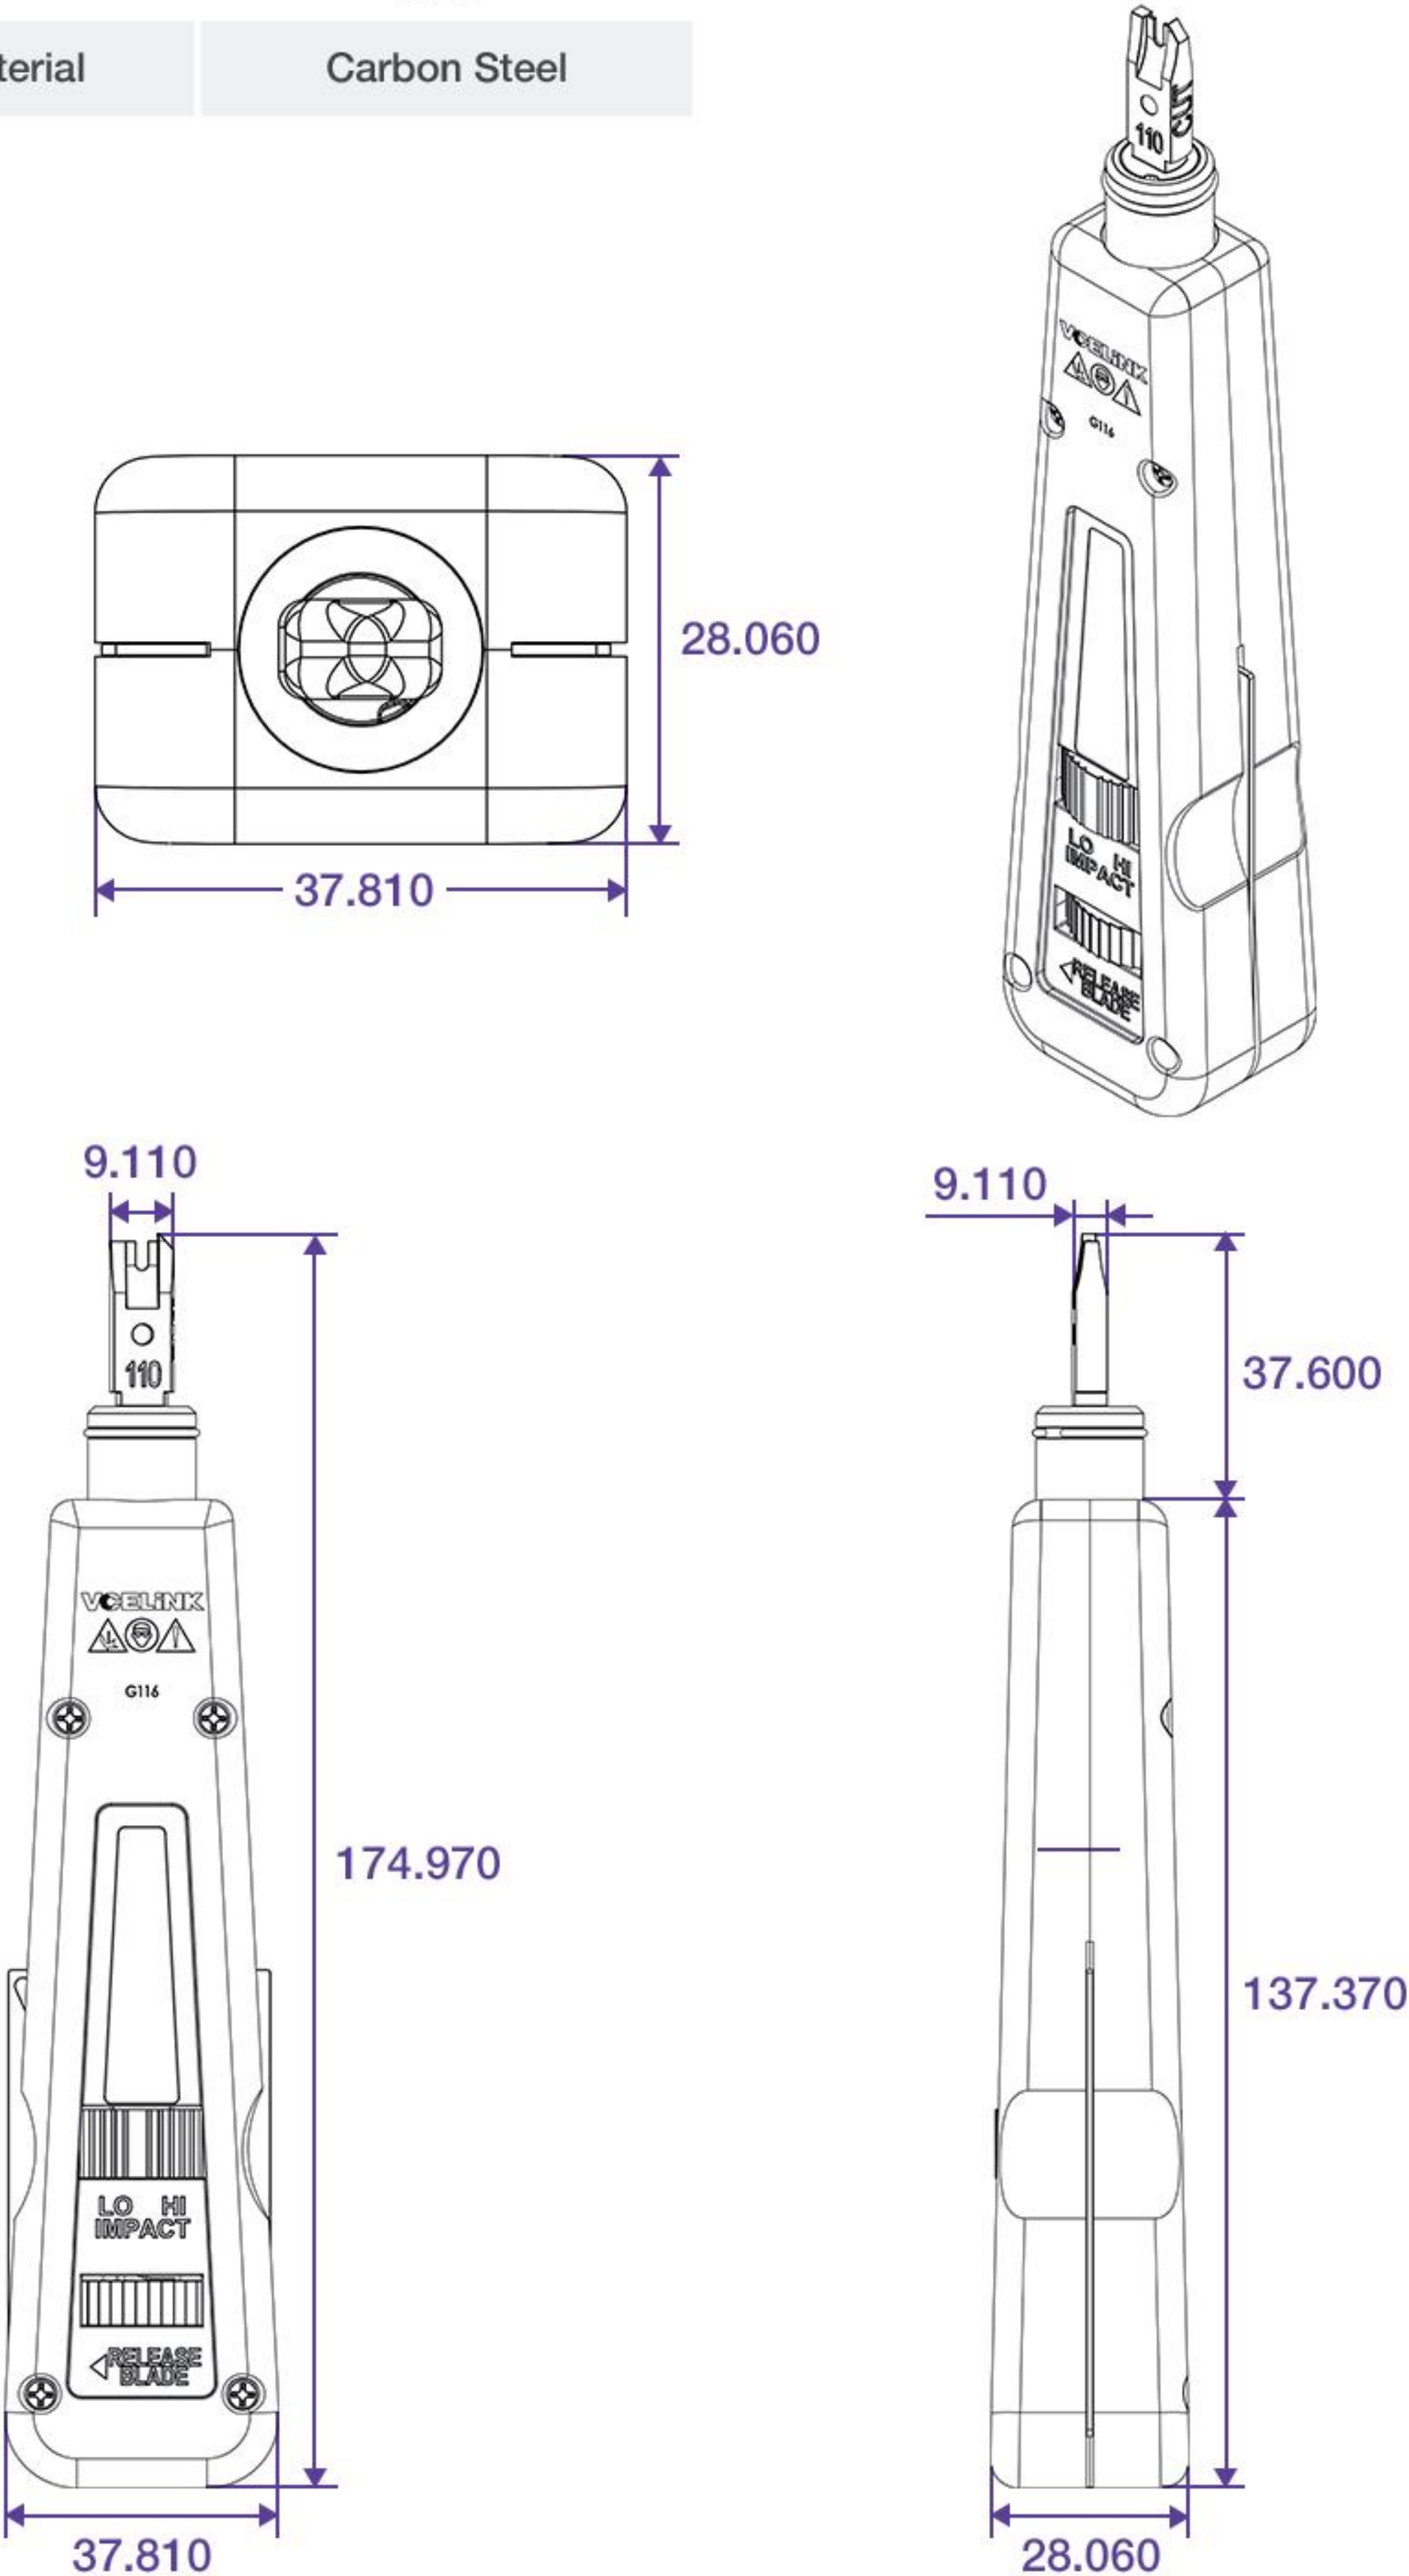

Quality networking tool for network beginners, telecommunication, and network technicians
