

# All-in-one RJ45 Pass-Through Crimper

**GJ673**

## Overview

VCELINK RJ45 Crimp Tool is perfect for network installations. This all-in-one tool can help you to cut, strip, crimp connectors, trim the excess wires, and secure dovetail clips for a clean, professional result. A built-in color-coded wiring guide ensures quick and easy installation. The comfortable grip reduces hand fatigue during extended use. By adjusting the knob and the strain latch crimper plate to change the crimping port mode to match the different types of connectors, this crimp tool is compatible with all RJ45/RJ11/RJ12 connectors, providing the flexibility you need for any project. The locking button allows for easy storage and portability when the tool is not in use.

## Benefits

All-in-one functionality

All types of RJ45/RJ11/RJ12 connectors are applicable

Color-coded wiring guide

Ergonomic and non-slip handle

Sharp and replaceable SK5 blade

Compact and portable design

## Technical Specification

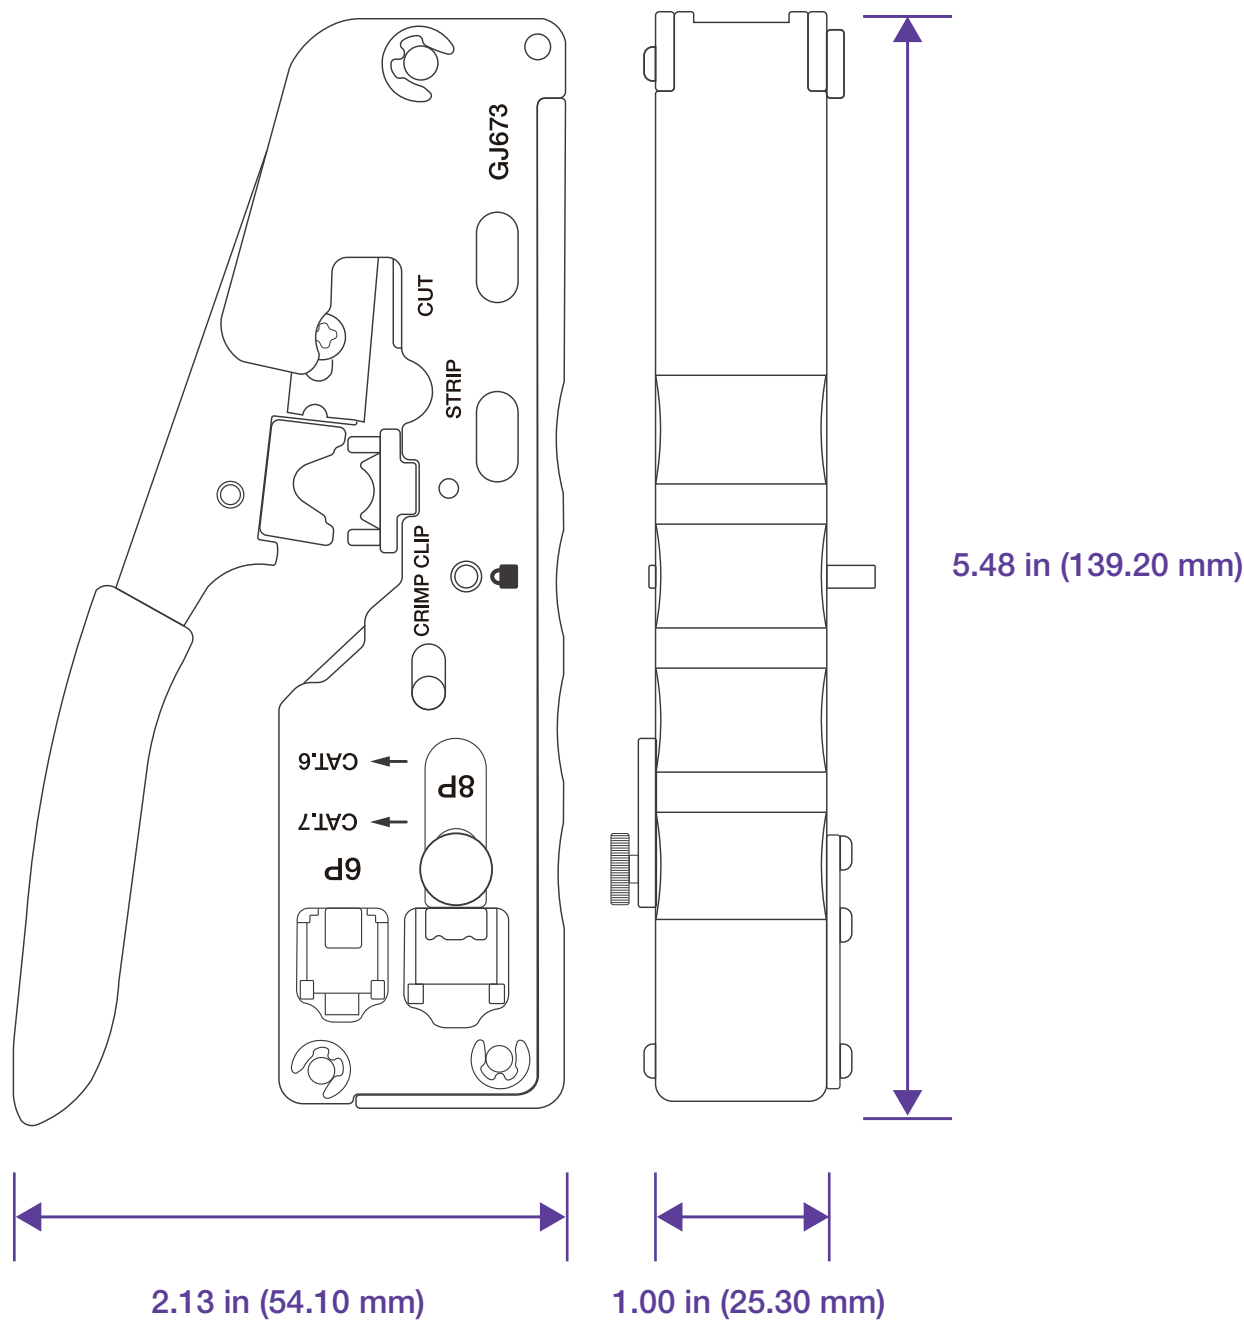

| Parameter                          | Value                                                                                           |
