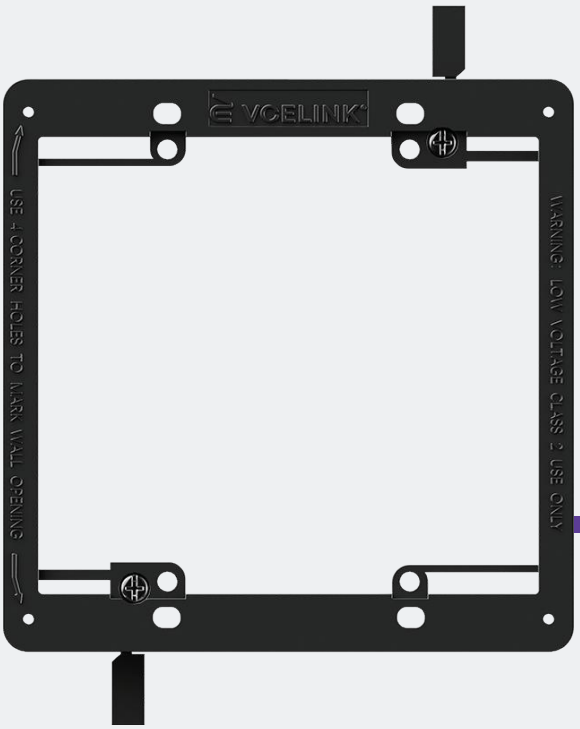
Mounting Bracket

A182



Overview

The VCELINK bracket is black and made of flame-retardant PC material, making it safe and sturdy and will not bend or break during installation. The bracket has two wing clips extending into the wall and provide a strong and flush fit. Four corner holes on the bracket serve as a cutting guide, helping you cut a clean and suitable hole in the wall without fussy measurements and making installation a breeze. This bracket needs to be used with an appropriate brush wall plate and is fixed through four screws with the wall plate. The bracket is suitable for drywall thickness from 0.21 inches to 0.78 inches (5.5 mm to 20 mm).
