

Pass Through Ethernet Crimper

GJ674

Overview

VCELINK RJ45 Crimp Tool is perfect for network installations. This silver all-in-one tool can help you to cut, strip, crimp connectors, trim the excess wires, and secure dovetail clips for a clean, professional result. A built-in color-coded wiring guide ensures quick and easy installation. The comfortable grip reduces hand fatigue during extended use. By adjusting the knob and the strain latch crimper plate to change the crimping port mode to fit the corresponding connectors, this crimp tool is compatible with all RJ45/RJ11/RJ12 connectors, providing the flexibility you need for any project. The tool's body is built to last with stainless steel. The locking button allows for easy storage and portability when the tool is not in use.
